Re-cap of Local Road Maintenance Grants - 1977-78

APPENDIX ONE

GENERAL NOTES

In 1974, a new policy for Local Roads was announced which resulted in the cancellation of all Local Road Boards having highroad connections with the Province's main highway system. The Department of Transportation and Communications assumed direct responsibility for maintenance of all the local roads which were formerly under the jurisdiction of these Boards. As a result of the aforementioned policy and new incorporations there now remains only 20 Local Road Boards in Newfoundland and Labrador.

In addition to the Department of Transportation and Communications accepting direct responsibility for maintenance of the local roads in settlements which have highroads connection, Government also approved a new formula for computing annual road grants for Local Road Boards and Incorporated Areas.

The formula is as follows:

1. In all local Road Boards and Community Council Areas without highway connections, and having non-motorable roads, Annual Grants to be awarded on the basis of $4 per capita.

2. In all Incorporated Areas having highroad connections, as well as those in isolation with motorable roads, Annual Grants to be computed on the basis of $800 per mile for each of the first 5 miles of local roads to be maintained, plus $600 per mile for the remainder.

3. In the case of Towns, Rural Districts, and Local Improvement Districts, annual Winter Maintenance Grants to be awarded on the same basis as the grants for Summer Maintenance. The Department of Transportation and Communications will

.. 2 .. /

undertake winter maintenance on Community Council roads free of cost to each of the Councils unless a specific Council requests a Winter Maintenance Grant to undertake its own Winter Maintenance Program.

During the year all 20 Local Road Boards were notified of the amount of the Local Road Grant to which they were eligible. Grants were actually released to 17 Boards with 16 being successful in carrying out their work repair programmes.

Regular Local Road Maintenance Grants to which the Boards were eligible in 1977-78 totalled $12,636. Total Regular Grants released amounted to $11,228. Total Special Grants released amounted to $34,000. Total Expenditure including both Regular and Special Grants amounted to $42,950.

In addition to the Grants approved to the Local Road Boards, $2,016,430 in the form of regular local roads maintenance grants, plus $12,865 in Special Grants, was paid out to some 292 Incorporated areas.
